Work Experience

Fullstack Developer at Sanata Dharma University Exam
February, 2023 - May, 2023

This project revolves around an E-Commerce platform tailored for pet shops. Users can seamlessly purchase various items such as pet food, grooming products, and treats for their beloved pets. The project was initiated as part of an academic examination at our university. Subsequently, I was assigned the responsibility of leading the development process as a Full Stack developer. Github

Back-End Developer at Sanata Dharma University Exam
September, 2023 - December, 2023

This project focuses on connecting blood donors with individuals in need of blood donations. Users can broadcast their need for blood donors, while potential donors can respond by offering their blood type. This platform facilitates the process of blood donation and ensures timely assistance for those in need. Github

Back-End Developer at My Church
December, 2023 - February, 2024

This project aims to create a comprehensive profile of my church, providing a platform for volunteers and interested individuals worldwide to gain insights into our community, its activities, and its values. Github

Education

SENIOR HIGH SCHOOL from Assisi Senior High School
2018 - 2021

During my time in senior high school at Assisi Senior High School, I had the opportunity to explore various subjects and develop a strong foundation in academics. Additionally, I actively participated in extracurricular activities, such as debate club and community service projects, which enriched my overall learning experience and contributed to my personal growth.

Bachelor of Computer Science from sanata Dharma University
2021 - present

Currently, I am pursuing my Bachelor of Computer Science degree at Sanata Dharma University. This program has provided me with valuable knowledge and skills in various aspects of computer science, including programming, algorithms, and data structures. I am excited to continue my educational journey and further expand my expertise in this field.

Portfolio

Frontend: React js, CSS, JavaScript, Bootstrap
Backend: Node js, Express js, MySQL

Photo Petshop E-Commerce

Developed a highly efficient website frontend for a Petshop E-Commerce platform. Utilized React js, CSS, JavaScript, and Bootstrap to deliver a performant codebase. Implemented the backend using Node js, Express js, and MySQL for seamless data management and processing.
